VARNISHES

ENAMELS JAPANS DRIERS

(CATALOGUE No. 29)

GERSTENDORFER BROS., NEW YORK. U.S.A.

CATALOGUE No. 29

TO THE TRADE:

In bringing before you this descriptive list of Sapolin Varnishes, we wish to emphasize the fact that an expert knowledge of the exact requirements of the varnish consumer, combined with experience and skill in manufacturing, enables us to offer Varnishes of superior merits.

Every variety of Sapolin Varnishes is carefully made to meet the required conditions. The goods are always uniform and composed of the best materials available, according to price and the purpose for which they are intended.

Sapolin Varnishes appeal to the discriminating consumer and to the dealer who aims to please his customers by giving "quality" at reasonable prices.

The reputation which Sapolin has enjoyed for thirty years in all parts of the world guarantees every can. The line embraces a complete assortment of reliable varnishes for every purpose.

GERSTENDORFER BROS.

White Enamels

No. 1 Sapolin White Enamel

A hard gloss Finish for any interior decorating, works easily under the brush, smooth and hard-drying. Can be left bright as applied, or rubbed with pumice stone and water to a dull finish and repolished. A very satisfactory, high-grade Enamel at a low price. Put up in round pails of 1 gal. and $\frac{1}{2}$ gals.; for smaller sizes, see our Specialty Catalogue, 28th Edition. Per gallon \$2.80

No. 39 Sapolin White Bathtub Enamel

Hard porcelain Finish. Resists hot and cold water. For inside and outside of bathtubs, bathroom walls, woodwork and fittings. Tough, elastic and durable. Put up in round pails of 1 gal. and $\frac{1}{2}$ gals.; for smaller sizes, see our Specialty Catalogue, 28th Edition. Per gallon \$4.00

No. 180 Sapolin White Enamel Undercoat

An eggshell white, which does not yellow; especially suited for a first coat over wood or paint for brilliant Enamel No. 1 and No. 200. Also as a finishing Enamel where an eggshell gloss is wanted without the expense of rubbing. Put up in round pails of 1 gal., $\frac{1}{2}$ gals. and $\frac{1}{4}$ gals. No smaller sizes. Per gallon \$2.80

No. 200 Sapolin Special Snow White Enamel

Highest grade, pure white, heavy bodied rubbing and polishing Enamel. A White Enamel of very superior quality; its smooth flowing properties, its heavy body and extreme whiteness make it ideal for highest class inside Enameling. It shows no laps or tears and can safely be used on large as well as small surfaces; on inside doors, walls, trim, etc. May be rubbed to a dull finish and repolished; or it may be left in its original smooth lustrous finish. Put up in round pails of 1 gal., $\frac{1}{2}$ gals. and $\frac{1}{4}$ gals. No smaller sizes. Per gallon \$4.00

Add to above prices in U. S. Gallon Cans:

For $\frac{1}{2}$ gals....10c. per gal. For $\frac{1}{4}$ gals....20c. per gal.

SAPOLIN

UNDER the name SAPOLIN we offer a complete line of high-grade decorative "special goods for special purposes."

For twenty-five years we have made them, improving them always, and aimed to combine the best in quality with ease of application, so as to enable the amateur, the home-lover and housewife to create decorative effects which

surprise and delight. One medicine does not cure all ills and the same preparation used on a stove pipe is not suited for a floor or piece of bric-a-brac; for that reason SAPOLIN consists of a complete assortment of easy-to-put-on goods for any decorative purpose in and about the Home. This booklet tells you more about them.

Beautiful Decorations

TO have a really attractive Home with beautiful surroundings and tasty decorations is the wish of every Housewife. The SAPOLIN specialties help wonderfully towards this end, and enable you to economically and easily renew marred, worn or scratched woodwork, or to regild frames, enamel your bathtub and do hundreds of other things about the House in a pleasant, inexpensive way. Beauty and healthful cleanliness follow wherever SAPOLIN has been used.

IF you will read these pages and follow the suggestions, you will agree that a liberal use of SAPOLIN gives you more newness, more beauty, more pleasure at smaller cost than you would ever have thought possible. When you buy and use SAPOLIN you can feel that the quality is in the package, and there'll be no disappointment when you're through.

FRAMES, MOULDINGS, REED or WICKER FURNITURE, PARLOR CHAIRS and GAS or ELECTRIC FIXTURES take on new life and look as if coated with genuine gold, after an application of SAPOLIN GOLD ENAMEL, WASHABLE OUR FAVORITE. It lays smoothly, shows no mark of the brush, keeps bright a long time, and, when soiled, can be washed and brought back to its original lustre. A 25 cent box will do a large chair or several picture frames of usual size. Not an ordinary gilding, but a real Enamel; dries to a hard, permanent, lustrous surface. Also made in silver.

How to use Sapolin Gold Enamel **M**IX the powder with the liquid in mixing cup found in every package. Mixture to be of consistency of thin cream and to flow freely from the brush. It dries with an Enamel finish, without brush marks. The Liquid will spread a film over the Powder and this protects the Gold and enables it to withstand washing, rubbing

and handling. The Powder in each bottle is weighed exactly, and when used in accordance with these instructions there is just enough to use up all the Liquid. Mix small quantities at a time; just enough for immediate use.

In gilding porous articles, such as plaster, apply a coat of shellac and let this dry thoroughly before using the Gold Enamel. For outdoor use, apply a finishing coat of the clear Liquid without Powder when the gilding has dried.

**A brilliant
china-like
surface**

FOR BEDSTEADS, WICKERWARE BASKETS, CHAIRS, MANTELS, MOULDINGS, WOODWORK, etc., use SAPOLIN ENAMEL, porcelain finish, in pure white or beautiful colors. The color assortment is so complete that you can easily select those which harmonize with other furnishings. ANDIRONS, OPEN FIRE PLACES and FRONTS should be coated with SAPOLIN DULL BLACK

IRON ENAMEL. Remember that all these goods are ready for use and made so that the most inexperienced will succeed in applying them right.

If you prefer a "Ready-Mixed" Gilding, we recommend

SAPOLIN GOLD PAINT, Ready Mixed Japanese,

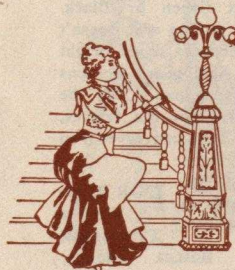

which has stood the test of years.

FOR BATHTUBS, SINKS, BATHROOM TRIMMINGS and FURNISHINGS, we recommend SAPOLIN BATHTUB ENAMEL, a liquid porcelain in pure White, Ivory, Rose and Nile Green. A tin or copper tub is quickly changed to have the appearance of the porcelain kind; used for inside

and outside of tub; is ready for use and the simple directions printed on label are easily followed. A 40 cent can is enough to give a bathtub two coats.

**How are
the Floors
in your
Home?**

FOR FLOORS, BORDERS, STAIRS, FURNITURE, CHAIRS, etc.,

SAPOLIN FLOOR AND FURNITURE STAIN is used; it gives new life and brightness to old, unsightly surfaces. With it, you can change the color of floor and woodwork, or retain the old color, giving it a new lustre. Hard wearing and tough; permanent, brilliant colors. A Stain and Varnish finish in one application. Does not turn white. In all the wood colors; also Ground Color for use as undercoat on very bad floors, or on floors which are dark and are to be stained a lighter color.

FOR SCREENS of all kinds on windows, doors, porches, etc., **SAPOLIN WIRE SCREEN ENAMEL** in Green or Black. It is easily put on and doesn't clog the meshes; dries bright and makes last year's screens look spick and span. Use the same **ENAMEL** for the frames, too. A 25 cent can saves you many dollars.

A bright Silver finish on any surface **FOR BATH-ROOM TRIMMINGS,** **PIPES, BOILER FRONTS,**

BICYCLE SPOKES, AUTOMOBILE TRIMMINGS, RAILINGS, GARDEN SEATS and wherever a bright silver finish is wanted, **SAPOLIN ALUMINUM ENAMEL** is just the thing. Won't tarnish, doesn't rub off: stands outdoors, as well as inside: washable and needs no polishing. Makes ornaments out of unsightly fixtures, etc.

TO brighten and clean all **WOODWORK, FURNITURE, PIANOS, etc.,** with **SAPOLIN FURNITURE POLISH** is easy and pleasant: gives new life to dead surfaces; does not dry greasy, like most polishes, but cleans thoroughly and polishes at the same time. Needs little rubbing;

a child can put it on right. Just as good for varnished, waxed or shellaced floors; simply rub the polish over the surface, wipe it off and the work is done.

Rusty things made spick and span **STOVE PIPES, FURNACE FRONTS, STOVE TRIMMINGS, etc.,** are made to look

bright and new with SAPOLIN STOVE PIPE ENAMEL, a beautiful black, that covers up all rust, scratches and unsightliness, and dries smoothly with a high lustre.

FOR gilding RADIATORS, REGISTERS and PIPES, SAPOLIN RADIATOR GOLD is unequalled; a combination of the finest gold powder and a liquid which resists heat. If in some rooms a silver finish is preferred, use SAPOLIN RADIATOR SILVER-ALUMINUM, untarnishable and doesn't rub off.

FOR the staining of WOODWORK, DOORS, SHELVES, etc., use SAPOLIN VARNISH STAINS. One coat on painted and two coats on unpainted surfaces produce a beautiful, brilliant effect. In all the natural colors of hardwood.

For Carriage or Auto **F**OR retouching or painting a CARRIAGE, RUNABOUT, BUGGY, or AUTOMOBILE, we furnish SAPOLIN CARRIAGE GLOSS COLORS, in handsome colors. They dry with a mirror-like lustre, are easy to apply, ready for use and stand the wear to which they are subjected.

FOR HARNESS, LEATHER COVERS, BUGGY TOPS, AUTOMOBILE TOPS, etc., use SAPOLIN LEATHER DRESSING, a bright, black, leather-preserving preparation.

Sapolin Iron Enamel **P**REVENTS rust and decay. Everywhere, in city or country, many uses for this Enamel will at once suggest themselves. Especially suited for IRON FENCES and RAILINGS, IRON STEPS, HITCHING POSTS, GRATINGS, VASES, FARMING IMPLEMENTS, STABLE FIXTURES, GARDEN TOOLS, ANDIRONS, MACHINES, LAMPS, GAS FIXTURES, ANGLE IRONS, IRON HINGES, WAGONS, AUTOMOBILES, BRACKETS, STOVE FIXTURES, etc. You just brush on a coat of the Iron Enamel and the article will brighten up, and take on a smooth brilliant black appearance at once. The cost is trifling (less than one cent per square foot). It saves you many dollars, preserves and beautifies; just as well suited for outdoor as for indoor use.

SAPOLIN IRON ENAMEL is made in Brilliant Black and also in Dull Black (Wrought Iron Finish); the latter is especially suited for use on FRAMES, FIXTURES, ANDIRONS, FIRE PLACES, GRATES, CHIMNEY CORNERS, etc., in rooms where a subdued or mission effect is wanted.

THERE is only one rule to follow to successfully use these preparations. and that is the rule in all painting, viz.:

Rather put on

Two thin coats

Than one thick one.

It costs no more

Wears longer and

Looks better.

Be particular not to work with paint materials near fire or flame.

In asking for these goods at your store, be sure to avoid substitutes, as it is as much to your interest as to ours that you should use SAPOLIN. Insist on getting it; there is none "just as good." The proof of merit is the fact that it has grown so quickly in the confidence of the public. The demand grows constantly and competitors imitate our labels, packages and everything but the goods.

SAPOLIN

FLOOR & FURNITURE STAINS

A Permanent Hardwood Finish ready for use.

WHEN there are floors and woodwork to stain; a table, a dresser or some other piece of furniture to do over in a hardwood finish, the majority of people buy a can of Sapolin Floor & Furniture Stains, because they know beforehand that the completed job will fulfill all expectations.

The finish and care of floors, woodwork and furniture interests every homemaker; when done right, in the Sapolin way, they are the joy of painstaking and thrifty housewives. It is a great satisfaction to know that when the floors are finished with Sapolin Floor & Furniture Stains they require little care, when compared with the disagreeable work demanded by the old fashioned carpeted floors.

This material is a mixture of a first-class Varnish and Stain. It is furnished ready for use. One application produces a most beautiful, brilliant and permanent finish. It gives to ordinary floors the rich appearance of hardwood, and will withstand wear and tear.

Whether the wood be old or new, it is easy to stain satisfactorily with Sapolin, and no one need hesitate to use it. Old floors disfigured with shabby marks of wear and tear can be renovated very quickly and at slight cost.

When staining badly worn or marred floors, Sapolin Ground Color No. 98 should be used, and over this apply any of the beautiful Sapolin Floor & Furniture Stain colors which you may desire.

For Borders, Wainscoting, Staircases, Stairs, Doors, and, in fact, any surface about the home which is subject to more than ordinary usage and hard knocks, Sapolin Floor & Furniture Stains are the most appropriate finishes to use. They are tough and elastic. Easy to put on; hard to wear off. Will not chip, crack or mar white.
